

The SAIAN Hydrating Strawberry Facial with EpiPin

1. Cleanse

Cleanse the skin with Saian Strawberry Cleanser to break down and remove dirt and debris. Remove with a steamed towel. Perform second cleanse if client is wearing heavy makeup or is oily.

2. Exfoliate

Use Saian Strawberry Exfoliant to remove excess surface skin cells and prepare skin for infusion. Be sure to remove all of the scrub with a steamed towel.

3. EpiPin

EpiPin dry skin first, then apply the SAIAN PureHyaluronic Serum & SAIAN Active Renewal Serum and EpiPin again. Massage any excess serum into the skin.

4. Mask

Apply Saian Hydrating Mask directly on skin to calm, cool and hydrate the skin. Roll Saian Jelly Gobles over the mask for extra cooling effects. Allow mask to sit on skin for approx. 10-15 minutes. Remove the mask and massage in any remaining serum on the skin.

5. Finish

Apply Saian Vital K creme and Saian Sunscreen mist spf 30 for extra hydration and protection.
