

Viktoria De'Ann Regenerating Facial

1. Cleanse

Cleanse the face with VD Cleanser. Perform a second cleanse if client is wearing heavy makeup or is oily. Remove with steamed towel.

2. Prep Skin

Use Lactic 5% + Collagen - leave this on the skin, do not remove. Apply Pepti-lift and wait two minutes and proceed to apply Pepti-tone. Wait two minutes.

3. EpiPin

EpiPin dry skin first, then apply Pepti-pro-col and in small sections as you EpiPin again. If Pins did not dissolve completely, apply EpiEssence and EpiPin again.

4. Mask

Apply Pepti-Nano mask - you may let mask sit on the skin or use ice globes. Allow mask to remain on skin for 10 minutes and massage any remaining serum from the mask into the skin.

5. Finish

Apply VD Day Moisturizer or Night Moisturizer (whichever is appropriate).

* EpiPin is 'Product Neutral' and does not promote or endorse any specific product line. We haven't necessarily performed the protocol and ask you to rely on your skin care expertise to determine what products are best to use on your clients.
