

Anna Lotan Brightening Treatment with EpiPin

1. **Cleanse**

Use the **Sebafoam Cleanser** - Rinse off

2. **Exfoliation:**

Apply **Carrotinol Enzymatic Exfoliation** to gently removes dead cells, support barrier function and hydrate. This is the perfect complement to the EpiPin microchanneling treatment. Massage into the skin for 5 minutes. Remove with tepid water.

3. **Tone**

Use **Brightening toner**

4. **EpiPin**

EpiPin on dry skin first, then apply the **First of All Quenching Serum**, then **Enlight Brightening Booster** and EpiPin again.

5. **Mask**

Apply the **RedEx Mask** for Soothing and Cooling. Paint on with a brush, leave on for 10 minutes, remove with tepid water.

6. **Finish**

Apply **Eye & Face Lifting Fluid** and **Shea Butter Lip Balm**

Send client home with a Post Care Kit. The kit is to be used for 4-5 days post treatment. This ensures the client is using appropriate products for maximum results.
